1 MS. DINGMAN: Hi. Welcome to the 715 area
2 code hearing. I'd like to thank you all for coming
3 out to the hearing this afternoon. My name is Joyce
4 Dingman, and I'm one of the staff members on the
5 numbering team at the Public Service Commission
6 which we'll just call the PSC.

7 I'd like to introduce a couple other folks
8 today as well. This is Gary Evenson, he's the
9 administrator of the telecommunications division at
10 the PSC. Kathy Bakke on the end is the head of the
11 numbering team at the PSC. And Joe Cocke is from
12 NeuStar which is the North American numbering plan
13 administrator which you'll hear us refer to as
14 NANPA. They're a neutral third-party that handles
15 numbering resources throughout North America.

16 As you can see, we have a court reporter
17 here. But since we're having nine different
18 hearings, I'm going to ask her to go off the record
19 so that she doesn't write down our presentation nine
20 separate times for the commissioners to have to read
21 nine separate times. And then when folks are ready
22 to ask questions and things, we'll go back on the
23 record and make sure we have a copy of everything.
24 So you can go off the record.

25 (Discussion off the record.)

Transcript of Proceedings, 9/18/2007

1 MS. DINGMAN: Okay. First before I ask
2 for folks to give us their comments and suggestions,
3 I want to see if anybody has questions about any of
4 the information we've given out so far? No? Okay.
5 Then this is your chance to let us know your
6 thoughts on this issue.

7 The first person is Phil Janowski.
8 Wherever you're comfortable standing is fine.

9 DIRECT TESTIMONIAL STATEMENT

10 BY MR. JANOWSKI: I'm Phil Janowski. I'm
11 from Portage County, Stevens Point basically. And I
12 favor -- I basically favor the overlay because most
13 people now are using 18-digit dialing anyways with
14 the 10-10 numbers and this and that. Most cell
15 phones you almost have to use the area code because
16 there is so many different providers. And most of
17 the equipment nowadays, I would probably -- in my
18 estimation I would probably say about 95 to 97
19 percent of all the equipment is capable to update to
20 ten-digit dialing.

21 So I would prefer basically the ten-digit
22 system. I think that makes the most logical sense
23 and probably would be the most -- least disruptive
24 to business and economics of the area.

25 MS. DINGMAN: Thank you very much. Is

1 there anybody else who'd like to speak? No? Then
2 I'd just like to remind folks about the comment form
3 at the back of the room. If you want to write out
4 comments and give them to us this afternoon, or it
5 will tell you other ways you can send comments in to
6 the Commission.

7 Thanks very much for coming to the
8 hearing. We appreciate it.

9 (The hearing concluded at 1:30 p.m.)
